

**ARTICLE FIVE**  
**PERFORMANCE CRITERIA FOR CERTAIN BUILDINGS,**  
**USES, AND PROJECTS**

**SECTION A: GENERAL:**

**5.a.1. Uses, Buildings, Projects and Areas Affected by this Article:** Due to the potential adverse impacts associated with certain land use developments, the following activities or areas within the City of Sumter shall be guided by additional reviews and standards:

- a. Conditional uses as set forth in *Article 3*, or Special Exceptions as set forth in *Article 5.b.2*.
- b. Manufacturing and processing plants;
- c. Certain hazardous and/or potentially disruptive land development activities;
- d. Flood Hazard Areas.

**5.a.2. Applications:** An application for a permit for any of the above-listed uses, buildings or projects shall be accompanied by a plat or site plan as appropriate, in accordance with the provisions of *Article 7*. The application shall describe the proposed use in sufficient detail to determine compliance with the provisions of these regulations and the standards set forth herein.

**5.a.3. Review:** Review and approval by the Sumter City-County Planning Commission Staff shall be a prerequisite to the issuance of a building permit for any conditional use identified in *Article 3* of this Ordinance. If the conditions or standards are met, the zoning administrator may issue a permit for the use without review by the Sumter City-County Board of Zoning Appeals. If the Board reviews a case and imposes additional conditions, the use is listed as a permitted *special exception*.

**5.a.4. Public Hearing:** The Zoning Administrator shall schedule a public hearing as per *Article 1.i.6.* of this Ordinance for all special exceptions derived from conditional use zoning.

**SECTION B: SPECIFIC CONDITIONS AND STANDARDS FOR  
CONDITIONAL USES AND SPECIAL EXCEPTIONS:**

**5.b.1. Criteria for Review:** The following guidelines and criteria shall be implemented by the Zoning Administrator and/or the Sumter City-County Zoning Board of Appeals if a case is referred to the Board by the Zoning Administrator. Additionally, the Board shall be guided by *Article 1.h.4.c.* of the Zoning Ordinance in addition to the requirements set forth herein.

- a. That ingress and egress to the proposed use be provided with reference to automotive and pedestrian safety and convenience, traffic generation flow and control, and access

in case of fire or catastrophe, such as not to be detrimental to existing or anticipated uses, either adjacent to or in the vicinity of the proposed use;

- b. The off-street parking and loading areas, where required or proposed by the applicant, be designed and provided in harmony with adjacent properties;
- c. That refuse and service areas be adequately screened so as not to be visible from adjacent property or public rights-of-way and shall be located in such a way as not to create a nuisance to adjacent properties;
- d. That screening, buffering or separation of any nuisance or hazardous feature be provided with reference to type, dimensions and character, and be fully and clearly represented on the submitted plans, to protect adjacent properties;
- e. That proposed signs and exterior lighting be provided so as not to create glare, impair traffic safety, or be incompatible with adjacent properties;
- f. That the affected site shall be suitable in terms of size, shape and topographic conditions to accommodate the proposed use, building or project and to insure compatibility and the safety and welfare of area residents.
- g. **Home Day Care as a Home Occupation** – The following Conditional Use process will be used for initial review of this use and anytime the number of children receiving care exceeds 6 out-of-home children:
  - 1. The home day care applicant will contact all abutting property owners, including those properties across the street, and provide them details of the proposed home occupation of home day care and the number of children involved. 75% of those property owners must agree to the proposed use.
  - 2. The approval document and DSS forms will be submitted with the Conditional Use Request and Fee.
  - 3. If the number increases from at or below 6, the above process will be repeated.
  - 4. Appeals of the Conditional Use will be filed in accordance with this regulation.
- h. **Automatic Merchandising Machine Operators, (NAICS 445132)**, vending machines - the following additional review criteria shall apply when reviewing conditional uses for stand-alone retail sales from vending machines. A commercial site plan application with plans developed in accordance with *Article 7.f.*, landscape plans and building elevations shall be submitted to address the following criteria:
  - 1. Minimum Development Standards –

- a. General Commercial (GC): In the GC district there shall be sufficient lot area to meet principal setbacks for the structure as required in *Article 3.i.5.b.*, in addition to the areas required for landscaping/buffering, parking, site access and drive aisles.
  - b. Light Industrial-Warehouse (LI-W): proposed development in the LI-W district shall comply with the full standards as outlined in *Article 3.k.5.*
  - c. Heavy Industrial (HI) – proposed development in the HI district shall comply with the full standards as outlined in *Article 3.l.5.*
- 2. Landscaping/Buffering – Landscaping shall be provided in accordance with *Article 9, Table 9-1.* For landscaping and buffering purposes this use is classified as “Commercial”. All submitted plans shall meet the full requirements of *Article 9.*
- 3. Parking/Access – Site access shall be limited to one access driveway per street frontage. All parking areas shall be paved with concrete curb and gutter and designed to meet the full development standards of *Article 8.i:* and *Exhibit 8-9.*
- 4. Sidewalks – sidewalks shall be installed along the street frontage of the development site where existing sidewalks are adjacent.
- 5. Exterior Appearance – All rooftop mechanical equipment shall be screened on all four sides with an all-weather, durable material. Vending units located within the Highway Corridor Protection District (HCPD) shall be veneered with materials that comply with *Article 3.t.4.c.* 80% of the exterior surface materials, excluding doors and windows, shall be brick, stucco or stone masonry. Any stair units constructed to access the interior of the vending unit shall be painted to match the exterior of the unit.
- 6. Signage –
  - a. Wall signage – shall be capped at 10% of the front wall area. The front wall is defined as the face of the vending unit from which merchandise is dispensed.
  - b. Freestanding Signage – stand-alone vending units are permitted 1 freestanding sign per street frontage and must comply with the standards set forth for the General Commercial (GC) district as outlined in *Article 8.h. and Exhibit 8-5.*
- i. **Special Event Facilities (NAICS 81299):** The following conditions apply to all Event Venues for conditional use approval:

- a. An on-site manager shall be present and available for the duration of all events occurring at the venue. Updated contact information shall be provided to the Zoning Administrator any time the on-site manager's contact information changes.
- b. An operation plan shall be submitted with the conditional use application describing generally how the facility will operate. Substantive changes to the operational plan shall require additional Zoning Administrator approval. The operational plan shall include, at a minimum, the following items:
  - i. Maximum capacity of the facility, based on building and fire code;
  - ii. Contact information for the on-site facility manager;
  - iii. Types of events anticipated/marketed;
  - iv. Anticipated annual number of events;
  - v. How solid waste will be disposed of;
  - vi. A floor plan of the facility showing the square footage and use of each room;
  - vii. A plot plan showing building footprint, property lines, parking areas, delineated outdoor event space (if applicable). A formal site plan submission may be required by the Zoning Administrator.
- c. Vehicular access to the site shall be adequate in terms of width, vertical clearance, and construction to support emergency vehicles in accordance with applicable Fire Code, as determined by the Sumter City-County Fire Inspector.
- j. **Artisan Food and Beverage Production (NAICS 3113, 3114, 3115, 3118, 3119, and 312):** The following conditions apply to all artisan food and beverage manufacturing uses for conditional use approval:
  - a. Manufacturing activities may be no larger than 20,000 sq. ft. GFA;
  - b. The facility must meet all requirements outlined in *Article 5.b.5.* of this Ordinance;
  - c. Accessory retail and/or wholesale sales, training, and/or education, are allowed;

- d. All production activities must be located within a completely enclosed structure adequately constructed to limit emission of odor, noise or vibration detrimental to other uses or properties in the area;
  - e. All storage shall be within an enclosed building, tank, or silo, or screened from view by fences, walls, or landscaping. Stored items shall not be stacked to a height that exceeds the height of the screening;
  - f. Sales, service, product consumptions, and outdoor activities shall only occur between 6:00 a.m. and 10:00 p.m. if the establishment is adjacent to a residential use;
  - g. Shipping and receiving activities shall only occur during operating hours between 6:00 a.m. and 10:00 p.m.;
- k. **Urban Townhome Dwellings:** The following conditions apply to all urban townhome dwelling units for conditional use approval:
1. All townhome units shall front on either a public street or a private street that is part of a Planned Development.
  2. Auxiliary parking at the rate of 1 space per 4 units must be provided. Such parking may also be provided on-street provided such parking is provided on streets with sufficient width as outlined in *Article 8, Exhibit 8-3* and that on-street parking does not conflict with other laws or restrictions restricting parking on said street.
  3. Provision of a common parking area(s) to the rear or side of units is required.
    - i. Common parking areas shall consist of an asphalt or concrete surface material and be of sufficient size to meet the residential off-street parking minimums and the general parking area dimensional and design standards outlined in *Article 8.i*. The provision of parking lot landscape islands within common parking areas is not required.
    - ii. Where a common parking area is located to the side of townhome units and/or otherwise is adjacent to a street, the street buffer landscaping outlined in *Article 9.b.4.a* shall be met.
    - iii. Individual front drive access to urban townhome units is prohibited.
    - iv. Individual driveways and parking each unit from a rear alley is considered to meet the common parking area requirement.
  4. A common landscaping plan identifying the location, species, caliper (trees), gallon size (shrubs), sodding area, and height at time of planting for all plantings

to be installed at the front and sides of all units. Sodding must be used for ground cover for all impervious areas to the front and sides of all townhome structures, except for planted landscape bed areas.

*Note: Formal site plan submission required per Article 1.f.5.*

1. **Suburban Townhome Dwelling:** The following conditions apply to all suburban townhome dwelling units for conditional use approval:
  1. All townhome dwellings shall front on either a public street or a private street that is part of a Planned Development.
  2. Individual drive access to suburban townhome dwellings must be from a street or road that is not owned and/or maintained by the South Carolina Department of Transportation (SCDOT).
  3. Auxiliary parking at the rate of 1 space per 4 units must be provided. Auxiliary parking must be located off-street.
  4. Any common parking areas provided shall meet the interior parking area landscaping requirements outlined in *Article 9.c.3*.
  5. A common landscaping plan identifying the location, species, caliper (trees), gallon size (shrubs), sodding area, and height at time of planting for all plantings to be installed at the front and sides of all units. Sodding must be used for ground cover all impervious areas to the front and sides of all townhome structures, except for planted landscape bed areas.

*Note: formal site plan submission required per Article 1.f.5.*

- m. **Single-Family Attached Dwellings:** The following conditions apply to all single-family attached dwelling units for conditional use approval:
  1. Submission of a floor plan and site plan are required.
- n. **Duplex Dwellings:** The following conditions apply to all duplex dwelling units for conditional use approval:
  1. Submission of a floor plan and site plan are required.
- o. **Patio Home Dwellings:** The following conditions apply to all patio home dwelling units for conditional use approval:
  1. An 8 ft. side building setback is required around the exterior of a patio home project development area.

2. Submission of a floor plan and site plan are required.

*Note: Refer to Dwelling, Patio Home definition in Article 10.*

p. **Triplex/Quadraplex Dwellings:** The following conditions apply to all triplex/quadraplex dwelling units for conditional use approval:

1. No more than one access from either a public street or a private street that is part of a Planned Development per lot. This does not apply to existing structures being converted to triplex/quadraplex units where more than 1 street access has been established and has been in existence on or before November 7, 2023.

*Note: Formal site plan submission required per Article 1.f.5.*

**5.b.2. Enumeration of Certain Hazardous and/or Potentially Disruptive land Development Activities:** Per *Article 5.a.1.c.*, the following uses shall be reviewed by the Sumter City-County Board of Appeals, and if approved, shall be classified as a permitted special exception:

- a. Stockyards, poultry houses, commercial kennels, slaughterhouses, and animal auction houses (NAICS 112112, 1123, 11299, 3116, or 4245);
- b. Mining and extraction operations (NAICS 212);
- c. Telecommunications Towers (NAICS 517);
- d. Sewerage Treatment Plants (NAICS 221);
- e. Electric Substations (NAICS 221);
- f. Jails & Correctional Facilities (NAICS 561210 or 92214);
- g. Hazardous Waste and Nuclear Waste Transfer, Storage, and Treatment and/or Disposal Sites (NAICS 5621 or 5622);
- h. Resource Recovery Facilities, Solid Waste Storage and Transfer Facilities, Waste Tire and Treatment Sites, Composting Facilities, Manned Convenience Centers and Incinerators (NAICS 5629);
- i. Sanitary Landfills and Inert Dump Sites (NAICS 5621 or 5622);
- j. Recyclable Material Merchant Wholesalers (NAICS 423930);
- k. Drinking Places/Bottle Club/Night Clubs (NAICS 7224);
- l. Liquor Stores (NAICS 44532);
- m. Tattoo Parlors (NAICS 81299);
- n. Used Motor Vehicle Parts Merchant Wholesalers, Junkyards (NAICS 42314);
- o. Vehicular race and testing tracks (NAICS 711212);
- p. Amusements and Recreations (not classified). This includes but is not limited to Bingo Parlors, Pool Halls, and pistol, rifle, or skeet shooting range (NAICS 7132 or 7139);
- q. Bed and Breakfast Inns (NAICS 721191);
- r. Security & commodity brokers; insurance carriers & agents; real estate; employment agencies; legal services; accounting, tax preparation, bookkeeping, and payroll services, tutoring services & adult education; architectural, engineering, and related

services or specialized design services (NAICS 523, 524, 525, 531, 5411, 5412, 5413, 5414, or 5419)

**5.b.3. Special Design Review Criteria for Applicable Items in *Article 5.b.2*:** Due to the unusual nature of some of the operations associated herein, the following shall be required of the development and/or included in any review process:

- a. Sanitary Land Fills and Inert Dump Sites (NAICS 5621 or 5622):
  1. No such uses shall be located within 1,000 feet (measured in a straight line) of any existing residential, religious, educational, medical, or public use;
  2. An engineering firm with specific land fill expertise shall render a written opinion that, to the best of their professional judgement, the rock formations and/or artificial liners being used to contain the waste are impermeable and that the surrounding ground water sources will not be contaminated. A permit from the South Carolina Department of Health and Environmental Control (DHEC) shall accompany the zoning application;
  3. A drainage and sedimentation plan shall accompany the request, showing off-site run-off;
  4. The facility shall be effectively buffered and screened in accordance with an approved method sanctioned by the Zoning Board of Appeals upon the recommendation of the Zoning Administrator.
  
- b. Hazardous Waste and Nuclear Waste Transfer, Storage, and Treatment and/or Disposal Sites (NAICS 5621, 5622 or 5629):
  1. Shall be located no closer (measured in a straight line) than 1,000 feet to any existing residential, recreational, religious, educational or public use; no closer than 1,500 feet to any navigable stream (measured in a straight line), no closer than 2,500 feet to any lake, pond or reservoir used or scheduled to be used as a direct or connecting source of public drinking water, and disallowed in any water source, wetlands or flood plain areas;
  2. The facility shall be effectively buffered and screened in accordance with an approved method sanctioned by the Zoning Board of Appeals upon the recommendation of the Zoning Administrator;
  3. The zoning application shall be accompanied by an environmental impact statement, prepared by an engineering firm with specific expertise in environmental safety and environmental quality issues and approved by the South Carolina Department of Health and Environmental Control (DHEC);
  4. In the zoning application written documentation shall be submitted disclosing the hazardous waste materials to be handled and the approximate quantity to be accommodated over the life of the facility;

5. The applicant shall comply with all requirements imposed by the Zoning Board of Appeals on the property in the final adjudication of the submitted application.
- c. Vehicular Racing and Testing Tracks (NAICS 711212):
1. No such use shall be located within 1,500 feet of any residential use (measured in a straight line);
  2. The proposed facility shall have direct access off of a paved road meeting the criteria of a collector or arterial road.
- d. Mining and Extraction Operations (NAICS 212)
1. A zoning permit application shall be accompanied by a reclamation and reuse plan once mining operations are completed. Also, an approximate operating schedule shall be submitted with the zoning permit application which shall include times when explosives will be used.
  2. Mining and extraction operations shall not be located less than 300 feet from any residential use. When explosives are to be used the minimum distance shall become 2,500 feet. If a modification to the distance regulation is approved by the Zoning Board of Appeals, then specific measures shall be established to mitigate the affects of mining and extraction operations.
  3. Access to a mining or extraction site shall be from a paved road meeting the criteria of a collector or arterial road.
  4. Mining and extraction uses that are non-conforming but which were previously permitted by agencies of the State of South Carolina prior to the enactment of this Ordinance, or mining and extraction activities, or business on such parcel or contiguous parcel where the mineral or the surface rights which are under the same ownership or control on the date of passage of this Ordinance shall be exempt from the requirements of this section.
- e. Outdoor Pistol, Rifle or Skeet Range (NAICS 71399):
1. The site shall not be located within 1,000 feet (measured in a straight line) of any residential use, nor within 2,500 feet (measured in a straight line) at and between a 45 degree angle on either side of the direction of fire, of any residential use on the down range side of said use.
  2. The site shall be oriented away from habitable areas.
- f. Stockyards, Poultry Houses, Commercial Kennels, Slaughterhouses, and Animal Auction Houses (NAICS 112112, 1123, 11299, 3116, or 4245):

1. The referenced use shall not be located closer than 1,000 feet (500 ft. for commercial kennels) to any adjacent residential use on a separately platted parcel of land under separate ownership. No incineration of animals or animal refuse shall be permitted on-site.

g. Resource Recovery Facilities, Solid Waste Storage and Transfer Facilities, Waste Tire and Treatment Sites, Composting Facilities, Manned Convenience Centers, and Incinerators (NAICS 5629):

1. The referenced uses shall not be located closer than 1,000 feet to any residential district, church, school, historical place, or public park, nor within 400 feet of an existing residential use not in a residential district. It is further provided however, that any manned convenience center (i.e., recycling center) shall not be located within 100 feet of any residential use, church, school, historical place or public park, and not within 50 feet of any property line;
2. Manned convenience center shall have gravel or paved surfaces in all driving, parking and loading areas, and must be located on and have direct access from an arterial or collector road;
3. Manned convenience centers must be entirely enclosed within an 8 foot high security fence.
4. All uses within this category shall be screened in such a fashion as not to be visible from off-site. Screening may be accomplished by any combination of fencing, walls, berms, or landscaping approved by the Board of Appeals upon the recommendation of the Zoning Administrator.
5. No material shall be placed in open storage or areas in such a manner that it is capable of being transported by wind, water, or other causes.

h. Used Motor Vehicle Parts Merchant Wholesalers, Junkyards (NAICS 42314):

1. Referenced uses shall not be located closer than 500 feet to any residential use, church, school, historical place or public park;
2. That no material because it is discarded and incapable of being re-used in some form shall be placed in open storage;
3. That no material shall be placed in open storage in such a manner that it is capable of being transported by wind, water, or other causes;
4. That all paper, rags, cloth and other fibers, and activities involving the same materials, other than loading and unloading, shall be within fully enclosed buildings;

5. All materials and activities not within fully enclosed buildings shall be enclosed by a structure approved by the Board of Appeals upon the recommendation of the Zoning Administrator.
- i. Video Poker (Video Games – Coin Operated Amusement Devices with payout) (NAICS 7132);
    1. Principal Use:
      - a. One (1) parking space per 50 sq. ft. Gross Floor Area (GRA)
    2. Accessory Use:
      - a. 5 or less machines
      - b. At least 2,000 sq. ft. of Gross Floor Area (GFA)
      - c. Less than 40% of gross income from machines
      - d. Located in zoning districts where the principal use is a permitted use or an allowed Conditional Use as defined by the district regulations.
    3. For all video games
      - a. Machines shall be at least 300 feet from a house of worship, a public or private elementary, middle or secondary school, a public or private kindergarten, a public playground or park, a public vocational or trade school or technical education center, or a public or private college or university.
  - j. Tattoo Parlors (NAICS 81299);
    1. The referenced use shall not be located within 500 feet of a residential use, church or religious institution, public or private school, public park or playground, or any other tattoo parlor.
  - k. Recyclable Material Merchant Wholesalers (NAICS 423930);
    1. This use shall not be within 1,500 feet of a residential use, church, school or public playground on a separately platted parcel.
    2. A 6 foot security fence shall enclose the entire use.
  - l. Drinking Places/Bottle Clubs/Night Clubs (NAICS 7224);
    1. This use shall not be within 300 feet (measured in a straight line from structure to structure) of residential use (except in the portion of the Central Business District outlined in blue on the Sumter Central Business & Historic Preservation Downtown Design Review District Map attached to this ordinance – see *Appendix D*), church, school, or public playground on a separately platted parcel.

2. A six-foot high fence that is a visual screen will be installed to separate this use from residential uses, where such residential uses are directly adjacent to the property or site containing the use.
- m. Liquor Stores (NAICS 44532);
1. This use shall not be within 300 feet (measured in a straight line from structure to structure) of a residential use, church, school or public playground on a separately platted parcel.
  2. A 6 foot high fence that is a visual screen will be installed to separate this use from residential uses.
- n. Bingo Parlor / Pool Hall (NAICS 7132);
1. This use shall not be within 150 feet (measured in a straight line from structure to structure) of a church, school or public playground that is on a separately platted parcel under different ownership.
- o. Jails / Correctional Facilities (NAICS 561210 or 92214);
1. Site review must include an Environmental Impact Analysis and disclosure of emergency procedures.
  2. Use shall not be within 2,500 feet (measured in a straight line from structure to structure) of a residential use, church, school, or public playground that is on a separately platted parcel under different ownership.
  3. Access shall be from arterial roads only.
  4. Proper fencing and screening at the property line as well as internal security requirements.
- p. Bed and Breakfast Inns (NAICS 721191);
1. Shall be owner occupied with the owner-operator residing on premises.
  2. Limit exterior alterations to those necessary to assure safety of the structure or enhance compatibility of the bed and breakfast with the surrounding area.
  3. A maximum of 1 bed and breakfast inn shall be permitted on any one parcel.
  4. Operation of the Inn shall involve no exterior storage of materials or supplies.
  5. The principal use of any such structure or structures shall be residential.
  6. Rooms for sleeping shall be part of the primary residential structure.

7. Owner must demonstrate that adequate space is available for required off street parking (1 space per bedroom).
  8. No guest shall occupy the Bed & Breakfast for more than 7 consecutive nights.
  9. The resident owner shall keep a current guest register including names, addresses and dates of occupancy for all guests.
  10. Meals may only be served to registered guests.
- q. Security & commodity brokers; insurance carriers & agents; real estate; employment agencies; legal services; accounting, tax preparation, bookkeeping, and payroll services, , tutoring services & adult education; architectural, engineering, and related services & research; or specialized design services(NAICS 523, 524, 525, 531, 5411, 5412, 5413, 5414, or 5419).
1. A site plan and landscape plan must be submitted showing the following:
    - a. Ingress and egress to the proposed use be provided with reference to automotive and pedestrian safety and convenience, traffic generation flow and control, and access in case of fire or catastrophe, such as not to be detrimental to existing or anticipated uses, either adjacent to or in the vicinity of the proposed use;
    - b. Off-street parking areas must be located in the side or rear yard. The off-street parking and loading areas shall be designed and provided in harmony with adjacent properties;
    - c. Refuse and service areas must be located in the side or rear yard and must be adequately screened with solid fencing and/or vegetation so as not to be visible from adjacent property or public rights-of-way. All refuse areas shall be located in such a way as not to create a nuisance to adjacent properties;
    - d. All proposed HVAC and air conditioning units must be located at the rear façade or in a non-visible area of the secondary façade. All existing and proposed units must be adequately screened with solid fencing and/or vegetation so as not to be visible from adjacent property or the public rights-of-way. Window air conditioning units shall be installed at secondary or rear façades rather than the primary façade.
    - e. A minimum 10 ft. landscape buffer must be provided along all side and rear property lines. Screening and buffering shall be provided with reference to type, dimensions and character of the proposed use, and be fully and clearly represented on the submitted plans, to protect adjacent properties. Buffer yards shall be planted accordingly:

1. Existing healthy vegetation shall be retained;
  2. Existing trees shall be protected and retained, if removal is necessary, two trees must be planted for every one tree removed;
  3. 3 canopy trees, 6 evergreen trees and/or shrubbery and 3 understory trees per 100 linear feet or a solid brick wall a minimum of 6 ft. in height;
  4. All plant materials shall be native to the South Carolina Midlands to ensure their health and longevity.
- f. Proposed signs and exterior lighting shall be provided so as not to create glare, impair traffic safety, or be incompatible with adjacent properties. Freestanding signs shall not be taller than 5 ft. in height or larger than 6 sq. ft. in size.
1. Signs which flash, are animated, or rotate shall not be permitted.
- g. New construction shall be compatible with adjacent buildings in terms of size, scale, and character. Maximum building size is not to exceed 5,000 sq. ft. gross floor area. Building elevations meeting the following criteria must be submitted:
1. New construction must maintain the rhythm of door and window openings of adjacent structures;
  2. Primary facades shall not have blank walls or walls with only one door or window opening;
  3. Window and door openings shall not exceed the height and width ratios of adjacent buildings by more than 10%;
  4. Roof forms and orientation should be consistent with adjacent buildings;
  5. Primary entrances must be oriented towards the street;
  6. New buildings on corner lots may have entrances located on both street façades;
  7. Exterior entrance staircases and/or fire escapes for second floors shall not be placed on primary façades;
  8. New construction shall be compatible in height with adjacent structures. New construction shall vary no more than 10% with the average building height along its block.
- h. Setbacks –

1. Front setbacks for new construction shall be consistent with adjacent structures.
  2. Side and rear setbacks shall be in accordance with zoning district regulations for non-residential uses.
- r. Sewerage Treatment Plants (NAICS 221);
1. Site review must include an Environmental Impact Analysis and disclosure of emergency procedures.
- s. Electric Substations (NAICS 221);
1. Site review must include an Environmental Impact Analysis and disclosure of emergency procedures.
- t. Mobile Produce Sales (NAICS 445230);
1. Mobile Produce Sellers shall be permitted under the following condition:
    - a. To operate on private property or on designated public property that is located within the GC zoning districts. The cart and all items associated with any mobile produce selling operation *must be removed* from the premises during non-business hours.
    - b. To operate only on property on which there is located at least one active, permitted Primary Use. Under no circumstances shall a Mobile Produce Seller be issued a permit to operate on property that is uninhabited or vacant.
    - c. To operate only within designated parking areas on private property only so long as the minimum parking requirements for the primary use located on the property are met, or within a designated Mobile Produce sales area on a sidewalk or on private property where such designated Mobile produce sales areas are set aside expressly for the use. If the mobile produce seller is to be located within a designated Mobile produce sales area on private property, a zoning visit shall be required prior to the issuance of a permit to ensure that the size and location of the Mobile sales area is in conformity with all other requirements for the primary use, including parking, landscaping, ingress and egress, and vehicular circulation.
    - d. To operate only with the maintenance and use of a litter receptacle that is made available for the patrons' use. Excessive litter caused by product packaging or other associated products of the Mobile Vendor operation may result in revocation of zoning approval to operate.

- e. To operate only in a self-contained manner and without the utilization of any outside power source.
- f. To operate only with such signage as may be attached to the cart, vehicle, or device (not to exceed 2 sq. ft.) and without any further signage used to advertise the business, including portable signs or signs affixed to any structure.
- g. To operate and to sell only such permitted merchandise as is listed herein. Permitted merchandise shall be limited to produce, (meaning fresh fruits, vegetables, and other plant materials or plant byproducts such as herbs, spices, edible mushrooms, and honey. Items specifically banned from being sold by Mobile produce sellers include, cigarettes, cigars, and any product containing tobacco.
- h. The sale of produce from a cart or vehicle such as a truck is permitted so long as the produce remains in the vehicle until sold. No produce may be sold from a tractor trailer.
- i. To operate only with the appropriate licensing as required by SC DHEC and the Sumter City Business License Department, including a background check and any other requirements for Mobile Vendor operations of the City and the State of South Carolina.
- j. To operate upon written permission of the property owner.
- k. To operate only when *all* conditions listed have been met. There shall be no temporary licensing of Mobile Produce Sellers until such conditions are met. Only duly licensed operators shall be permitted.

**5.b.4. Communication Towers and Antennae:** These regulations will permit the placement of communication towers and antennae in locations which will allow telecommunication services to be rendered in conformity with the authority specified in the Federal Telecommunications Act of 1996. A communications tower and/or antenna may be treated as a conditional use without further review by the Zoning Board of Appeals upon the determination by the Zoning Administrator that all applicable conditions in this Ordinance are met. If the Board reviews a case and imposes additional conditions, the use is listed as a *permitted special exception* after a public hearing as similarly required in *Article 5.a.4.*

- a. Districts in which communication towers and antennas are conditionally permitted with specified height limitations:
  - 1. **Residential:** Towers and antennas are always special exceptions in all residential districts subject to *Article 1.h.4.c.* of this ordinance and must be approved by the Board of Appeals.

2. **Commercial:** Free-standing or guyed tower with height not to exceed 180 ft, and heights exceeding 180 feet requires a Special Exception from the Board of Appeals.
  3. **Industrial:** Free-standing or guyed tower with height not exceeding 320 ft. is permitted; heights exceeding 320 ft. require a permitted special exception permit from the Zoning Board of Appeal.
  4. **Conservation:** Same as residential.
  5. **Agricultural Conservation:** Same as industrial.
- b. Permitted Height Above Structures in All Districts: Tower and/or antenna mounted on buildings, water tanks, or structures other than a free-standing or guyed communications tower must not exceed more than 30 ft. above the highest part of a structure.
  - c. Variances: Variances from conditions imposed by this Section may not be granted by the Zoning Board of Appeals. However, variances from other general regulations not a part of this section may be granted under standards set forth in *Article 1.h.4.c.* of this Ordinance.
  - d. Application Requirements: The applicant for a permit for construction of a communications tower or the placement of a communications antenna on an existing structure other than a tower previously permitted must file with the Zoning Administrator an application accompanied by a fee of \$500.00 and the following documents:
    1. **Specifications:** One (1) copy of typical specifications for the proposed structure and/or antenna, including description of design characteristics and materials;
    2. **Site Plan:** A plan drawn to scale showing property boundaries, tower location, tower height, guide wires and anchors, existing structures, photographs or elevation drawings depicting typical design of proposed structures, parking, fences, landscape plan, and existing land uses on adjacent property (note: a site plan is not required if an antenna is mounted on an approved existing structure);
    3. **Tower Location Map:** A current map, or updated existing map showing the location of the applicant's antenna, facilities, existing towers, and proposed towers which are reflected in the public records serving any property within the City of Sumter, South Carolina;
    4. **Antenna Capacity – Wind Load:** A report from a structural engineer registered in South Carolina showing the tower antenna capacity by type and number and a certification that the tower is designed to withstand wind in accordance with *ANSI/EIA/TIA 222 (latest revision)* standards;

5. **Antenna Owners:** Identification of the owners of all antennae and equipment to be located on site;
  6. **Owner Authorization:** Written authorization from the site owner for the application;
  7. **FCC License:** Evidence that a valid FCC license for the proposed activity has been issued;
  8. **Visual Impact Analysis:** A line of site analysis showing visual and aesthetic impacts on adjacent residential districts;
  9. **Removal Agreement:** A written agreement to remove the tower and/or antenna within 180 days after cessation of use;
  10. **Conditions Met:** Evidence that applicable conditions in *Article 5.b.4.e.* are met.
- e. Conditions: Applicant must show that all of the following conditions are met:
1. **Location and Visual Impact:** The proposed tower, antenna or accessory structure will be placed on site in such a manner that it will minimize the visual impact on the surrounding properties;
  2. **Inability to locate on existing structures:** The applicant must show that a proposed antenna and equipment cannot be accommodated and function as required by applicable regulations and the applicants' technical design requirements without unreasonable modifications on any existing structure or tower under control of applicant, or to locate on an available and suitable nearby tower at reasonable costs (i.e., at or below local area rent average);
  3. **Necessity for location in residential district:** The applicant must show that the portion of the city and/or county intended to receive coverage cannot be adequately served by a communications tower or antenna placed in a non-residential district for valid technical reasons;
  4. **Public property or other private property not suitable:** Prior to consideration of a permit for location on private property which must be acquired, the applicant must show that available publicly owned sites, and available privately owned sites occupied by a compatible use, are unsuitable for operation of the facility under applicable communications regulations and the applicant's technical design requirements;
  5. **Design for multiple use:** Applicants must show that a new tower is designed to accommodate additional antennae equal to applicant's present and future requirements;

6. ***Safety Codes Met:*** Applicant must show that all applicable health, nuisance, fire, building, and life safety code requirements are met;
  7. ***Paint and illumination:*** A communications tower must not be painted or illuminated unless otherwise required by state or federal regulations;
  8. ***Distance from existing tower:*** A permit for a proposed tower site within 1,000 ft. of an existing tower shall not be issued unless the applicant certifies that the existing tower does not meet the applicants' structural specifications and design requirements, or that a co-location agreement could not be obtained;
  9. ***Indemnity and claims resolution:*** The applicant must show by certification from a registered professional engineer that the proposed facility will contain only equipment meeting FCC rules, and must file with the Zoning Administrator a written indemnification of the City of Sumter and proof of liability insurance or financial ability to respond to claims up to \$1,000,000.00 in the aggregate which may arise from the operation of the facilities during its life, at no cost to the city and in a form approved by the City Attorney.
  10. ***Minimum Setback:***
    - a. ***Residential Zoning:*** A tower on residentially zoned properties must be set back from all lot lines by distances equal to the district setback requirement or 100% of the tower height, whichever is greater.
    - b. ***Non-Residential Zoning:*** Towers located on non-residentially zoned properties must be set back from all lot lines by distances equal to the district setback requirement or the tower's fall zone, whichever is greater. Fall zones less than the full height of the tower shall be determined by an engineer licensed in the state of South Carolina in a letter that includes the engineer's signature and seal.
  11. ***Technical Assistance:*** Prior to issuing a permit, the Zoning Administrator may make use of professional technical services to determine if the standards in *Article 5.b.4.d.* are met;
  12. ***Maintenance:*** The communications tower shall be maintained by common corrosion control procedures so it continuously maintains a minimum visual impact on surrounding properties.
- f. Applicant may appeal to the Zoning Board of Appeals as follows:
1. Failure of the Zoning Administrator to act within 30 days upon the submission of a completed application meeting the requirements in *Article 5.b.4.d. and*

5.b.4.e. (unless extended by agreement), which may be consider to be a denial of a permit; and therefore, is the basis for an appeal to the Board.

2. Applicant may appeal for a variance from the general zoning district regulations, setback requirements in this section, but not from any other conditions in this section. Towers exceeding height limitations may be permitted by Special Exception pursuant to *Article 1.h.4.c.*
- g. Special Exception: A tower, pole, or antenna may be permitted by Special Exception together with the findings considered in *Article 1.h.4.c.* after a public hearing along with the following criteria:
1. All application requirements and conditions imposed by *Article 5.b.4.d. and 5.b.4.e.* are met except height limitations and setbacks;
  2. If additional tower height is required, the total tower height will not exceed 150% of the maximum height permitted in the district.
  3. The applicant has demonstrated that additional height above that permitted by the regulations is necessary for service to occupants of an area within the City of Sumter;
  4. Setback requirements and additional conditions are established by the Zoning Board of Appeals as it deems necessary to remove dangers to public health and safety and to protect adjacent property;
  5. Prior to approving a permit by Special Exception or on appeal from the Zoning Administrator, the Board may make use of professional technical services to determine that the standards in *Article 5.b.4.d and 5.b.4.e.* are met.

**5.b.5. Manufacturing and Processing Plants:** The purpose of this section is to prevent land or buildings from being used or occupied in any manner so as to create any dangerous, injurious, noxious or otherwise objectionable or hazardous condition. As a practical matter, the enforcement of this section must result as a response to complaints because a violation cannot be known or remedied before it occurs. Therefore, industries shall be made cognizant of the following provisions and shall be required to sign a “compliance guarantee” as a condition for the issuance of a building permit.

- a. ***Vibration:*** No vibration shall be produced which is transmitted through the ground and is discernible without the aid of instruments or at any point beyond the lot line. In industrial parks vibration beyond the lot line within the industrial parks, which only effects neighboring industries or commercial enterprises, shall not be a violation of this ordinance. Vibration emanating from construction activities between 7:00 a.m. and 9:00 shall be exempt from these regulations;
- b. ***Fire and Explosives:*** All activities and all storage of flammable and explosive materials shall be provided with adequate safety devices against the hazards of fire and explosions, including adequate firefighting and fire suppression equipment;

- c. **Noise:** All noise shall be muffled so as not to be objectionable due to intermittence, beat frequency or shrillness. In no event shall the sound pressure level of noise radiated continuously from a facility exceed at the lot line the values established in *Exhibits 5-1 or 5-2*; in any octave band or frequency. Sound pressure level shall be measured with a Sound Level Meter and an Octave Band Analyzer that conforms to specifications published by the American Standards Association.
- d. **Air Pollution:** The emission of visible smoke, dust, dirt, fly ash, particulate matter from any pipes, vents, or other openings, or from any other source into the air, shall comply with the regulations of the Environmental Quality Control Division of SC DHEC.
- e. **Odor:** There shall be no emission of odorous gases or other odorous matter in such quantities as to be offensive at the property line. In industrial parks odor beyond the lot line within the industrial park, which only effects neighboring industries and commercial enterprises, shall not be a violation of this ordinance. Notwithstanding, any process which may involve the creation or emission of any such odor shall be provided with both a primary and secondary safeguard system so that control may be maintained in the event of failure of the primary system.
- f. **Glare:** There shall be no direct or sky reflected glare, whether from floodlights, high temperature processing, combustion, welding or otherwise, so as to be visible in any residence.
- g. **Fumes and Vapor:** There shall not be emission of any fumes or vapors of a noxious, toxic, or corrosive nature which can cause damage or irritation to health, animals, vegetation, or to any form of property.
- h. **Heat, Cold, Dampness or Movement of Air:** Activity which could produce any adverse effects on the temperature, motion, or humidity of the atmosphere beyond the lot line shall not be permitted.
- i. **Toxic Matter:** The measurement of toxic matter shall be at the ground level or habitable elevation and shall be the average of any twenty-four (24) hour sampling period. The release of any airborne toxic matter shall not exceed the quantities permitted for those toxic materials currently listed in threshold limit values established by SC DHEC.
- j. **Exterior Illumination:** All operations, activities, and uses shall be conducted so as to comply with the performance standards governing exterior illumination prescribed in *Exhibit 5-3*. The pattern of light pooling from each light source shall be carefully considered to avoid throwing light on adjacent properties. Light sources visible in residential or medical areas shall comply with light intensities indicated in Column A in *Exhibit 5-3*. Light sources visible in commercial or industrial areas shall comply with light intensities indicated in Column B in *Exhibit 5-3*.

**5.b.6. Compliance Guarantee:** The applicant of a permit for a manufacturing or processing plant shall acknowledge in writing his understanding of the performance standards *Article 5.b.5.a through j*. The applicant shall also indicate his (her) agreement to conform with such standards at all times. Any violation after the fact as per *Article 5.b.5*. shall constitute a violation of this Ordinance and shall be treated accordingly.

**EXHIBIT 5-1  
MAXIMUM PERMISSIBLE SOUND LEVELS  
NIGHT TIME SCHEDULE\***

Frequency Band (in cycles per second)	Sound Pressure Levels (In Decibels)	
	At Non-Residential Lot Line	At Residential Lot Line
20 – 75	69	65
75 – 150	60	50
150 – 300	56	43
300 – 600	51	38
600 – 1,200	42	33
1,200 – 2,400	40	30
2,400 – 4,800	38	28
4,800 – 10,000	35	20

\*Maximum permissible sound pressure levels at the lot line for noise radiated continuously from a facility between the hours of 9 p.m. and 7 a.m.

(Note: Noise radiating from a facility between the hours of 7 a.m. and 9 p.m. shall be the same as in *Exhibit 9*, except as specified and corrected in *Exhibit 10*).

**EXHIBIT 5-2  
DAY TIME SCHEDULE**

Type of Operations Character of Noise	Correction In Decibels**
Daytime operation only	plus 5
Noise source operates less than 20% of any one-hour period	plus 5
Noise source operates less than 5% of any one-hour period	plus 10
Noise source operates less than 1% of any one-hour period	plus 15
Noise of impulsive character (hammering, etc.)	minus 5
Noise of periodic character (hum, speech, etc.)	minus 5

\*\* Apply to the preceding *Exhibit 9* one of the corrections only.

**EXHIBIT 5-3  
MAXIMUM INTENSITY OF LIGHT SOURCES\*  
AS PER 5.b.5.j.**

	Column A	Column B
Bare Incandescent Bulbs	15 watts	40 watts
Illuminated Buildings	15 footcandles	30 ft. footcandles
Backlighted or Luminous Background Signs	150 ft. lamberts	250 ft. lamberts
Outdoor Illuminated Signs & Poster Panels	25 footcandles	110 ft. footcandles
Any Other Unshielded Sources (Intrinsic Brightness)	50 candela per sq. centimeter	50 candela per sq. centimeter

\*Illumination shall be measured from any point outside the property. Illumination levels shall be measured with a photoelectric photometer having a spectral response similar to that of the human eye, following the standard spectral luminous efficiency curve adopted by the International Commission on Illumination.

## **SECTION C: TEMPORARY USES**

**5.c.1. Permit Fee:** An administrative fee will be charged for permitting a temporary use. The Zoning Administrator is authorized to issue a permit for temporary uses as specified in this Ordinance. No temporary use may be established without such a permit.

**5.c.2. Public Safety and Nuisance Avoidance:** All applicants filing for a temporary use must operate from a secured and permanently affixed to the ground structure with no displays or goods outside the structure which will distract motorists. Such temporary use shall not cause traffic congestion or create a nuisance to surrounding property.

**5.c.3. Limitations on Renewal and Revocation of Permits:** All permits for temporary uses may be renewed no more than one time within one calendar year, provided that it is determined that the said use is clearly of a temporary nature. Any temporary use that in the judgment of the Zoning Administrator is creating a nuisance or is disruptive to the surrounding properties will have its temporary permit revoked, and shall receive 10 days notice of such action.

**5.c.4. Removal of Temporary Use:** Structures from which the temporary use is operated shall be removed from the site after the temporary use permit has expired.

**5.c.5. Parking and Access Requirements:** A minimum of 5 off-street parking spaces shall be required for any one temporary use per parcel. The Zoning Administrator at his/her discretion may require additional off-street parking in concert with the off-street parking standards established in *Article 8.i*, if such standards require more parking spaces by land use category. Ingress and egress to the site shall be clearly marked. The parking area shall be a dust-free surface of asphalt, crushed rock, concrete or other surface approved by the Zoning Administrator.

**5.c.6. Permitted Temporary Uses:** The following temporary uses (and no other) may be permitted by the Zoning Administrator subject to the conditions met in *Article 5.c.1. through 5.* above:

- a. Carnivals or circus for a period not to exceed 21 days upon the approval of the Sumter City Council or its designee;
- b. Religious meetings in a tent or other temporary structure in industrial or commercial zones, for a period not to exceed 60 days;
- c. Open lot sales of Christmas trees, in the NC, GC, LI, and HI, districts for a period not to exceed 45 days;

- d. Firecracker stands in the NC, LC, GC, or industrial districts for a period not to exceed 30 days;
- e. Contractor’s office and equipment shed, in any district, for a period covering a construction phase of a project not to exceed 1 year, provided that such an office be placed on the property where the construction is to occur;
- f. Temporary retail sales stands in the NC, LC, GC, and Industrial districts for a period not to exceed 60 days, provided that,
  - 1. The sales stands are structures that are permanently affixed to the ground;
  - 2. They are accessory to the principal use on the property;
  - 3. The sales stands are located within the buildable area of the property;
  - 4. Powered or non-powered vehicles cannot be used as a temporary retail sales stand;
  - 5. Seating accommodations may be permitted for no more than fourteen (14) people;
  - 6. Any sign used must be in full compliance with *Article 8.h* of this Ordinance;

(Note: Non-profit and government sponsored events that last less than one (1) week are exempt from items 1, 2, and 4 above);
- g. Portable classrooms shall be permitted in any district for cultural facilities, community facilities, and educational facilities, or religious complexes, for a period not to exceed 1 year, provided that the structures are located behind the principal building(s). Mobile homes may not be considered portable classrooms. Rear and side yard setbacks for the appropriate residential districts shall be maintained.
- h. Mobile homes may not be allowed as a temporary use, except under the following conditions,
  - 1. Caretaker Mobile Home – In order to provide continuous security for commercial and industrial uses as long as occupancy is limited to security personnel associated with the principal use. Occupancy may not occur until approved by the Zoning Administrator and a permit is issued;
    - a. Security Personnel occupying Caretaker Mobile Home may include the caretaker and his immediate family;
    - a. Only one mobile home shall be allowed for each principal use;

- b. The mobile home shall be located in such a fashion as to be generally screened from public view. The Zoning Administrator shall determine the acceptability of the screening;
  - c. Two off-street parking spaces shall be provided for the mobile home;
  - d. The mobile home shall be located on the premises only as long as the principal use occupies the site;
  - e. The temporary permit must be renewed annually;
- 2. Construction Site Trailers – A mobile home may be located at a major construction site for the temporary use of a watchman, supervisor or other construction personnel; provided that,
  - a. The trailer must be located on or immediately adjacent to a major construction site;
  - b. The trailer may be located at the site during the period of construction;
  - c. A temporary permit is renewable semi-annually.
- 3. Temporary Office Trailer – An establishment which is expanding, rebuilding, or remodeling, and is located in a commercial or industrial zone may obtain a Temporary permit, subject to the following conditions;
  - a. The trailer cannot be the principal building. The trailer must be an annex to a pre-existing structure wherein the primary activity of the establishment is customarily conducted;
  - b. The trailer must be located on the property at a site which is furthest removed from public view. The Zoning Administrator will review and approve the proposed site of the trailer;
  - c. The temporary permit is renewable quarterly and is restricted to a maximum of duration of nine months.
- i. Portable on Demand Storage (PODS), sea vans, etc.: Defined as portable storage and/or warehouse units that can be acquired on demand and dropped off for either commercial or residential use.

Residential Uses:

- a. A maximum of 2 temporary storage units.

- b. Normally placed in side or rear yard only. However, may be placed in front yard if side and rear are not accessible (without impacting safety – sight triangles or emergency response access).
- c. Setback of 5 ft. from property lines. No minimum spacing between units and/or structures.
- d. Maximum dimensions of 8 ft. width, 40 ft. length, and 9 ft. height, and 2,880 cubic ft. volume.
- e. Limited to 90 days with one 90 day renewal in a calendar year.
- f. A Temporary Use Permit is required.
- g. Exclusion: All construction sites with active permits or public school construction sites may place all storage units as needed on the site without restrictions or permits. Units must be removed not later than 7 days after the C.O. or Letter of Completion are issued. This does not apply to any office units temporarily on site for construction.

**NOTE:** Units may not create any safety issues for sight triangles or emergency response access.

**Commercial/Industrial Uses:**

- No limit on number or size.
- 5 ft. setback from all property lines except 25 ft. for abutting property line with a residential use.
- No minimum spacing.
- No permit required except when placed in front / secondary front setback area. May only be placed in these areas after demonstrating need for front placement. Permit is for 90 days and may have one 90 day renewal in a calendar year.
- Placement may not create a safety hazard especially for sight triangles and emergency access.
- Exclusion: All construction sites with active permits or public school construction sites may place all storage units as needed on the site without restrictions or permits. Units must be removed not later than 7 days after the C.O. or Letter of Completion are issued. This does not apply to any office units temporarily on site for construction.

**NOTE:** Units may not create any safety issues for sight triangles or emergency response access.

j. Mobile Vendors and Concession Operators

1. Concession Operators are allowed only during special events such as festivals, carnivals, and city-wide celebrations and shall be permitted directly by the Business License Department without any additional information from the Planning Department.
2. Mobile Vendors shall be eligible for Temporary Use under the following conditions:
  - a. To operate on private property or on designated public property that is located within the GC, LC, LI-W, and HI zoning districts only. The vending vehicle and all items associated with any mobile vending operation shall be removed from the premises during non-business hours.
  - b. To operate only with the maintenance and use of a litter receptacle that is made available for the patrons' use. Excessive litter caused by product packaging or other associated products of the mobile Vendor operation may result in revocation of zoning approval to operate.
  - c. To operate only on a property on which there is located at least one active, permitted Primary Use. Under no circumstances shall a Mobile Vendor be issued a permit to operate on property that is uninhabited or vacant.
  - d. To operate and to sell only such permitted merchandise as is listed herein. Permitted merchandise shall be limited to reading material such as newspapers, magazines, and books; produce; and ready-to-eat items and finger foods such as hot dogs, sausages, hamburgers, tacos, burritos, baked potatoes, bagels, pastries, candy, prepackaged sandwiches, cookies, chips, biscuits, popcorn, nuts, pretzels, ice products, ice cream, milk products, frozen yogurt, hot and cold beverages containing no alcohol, flowers, and items related to permitted merchandise. Items specifically banned from being sold by mobile vendors include cigarettes, cigars, and any product containing tobacco.
  - e. To operate with the appropriate licensing as required by SC DHEC and the Sumter City-County Business License Department including a background check and any other requirements for Mobile Vendor operations for the City of Sumter, and the State of South Carolina. It is at the discretion of the Zoning Administrator to deny a Temporary Use permit due to a felony criminal record.
  - f. Upon written permission of the property owner.

- g. Upon submittal of a picture of the mobile vending unit along with a drawing showing the proposed location for set up on the property under review.
- h. Unit shall be an approved, commercially manufactured (not homemade) commercial Mobile Food Unit as defined in *Article 10*. All units shall be required to meet all SC DHEC regulations and shall provide proof of inspection approval from SC DHEC.
- i. Signage, for such purposes of this Ordinance, means a manufactured banner or rigid sign which is attached to a mobile food unit and may not exceed 32 sq. ft.

Unattached banners or rigid signs are not permitted.

Words and decorations painted onto a Mobile Food Unit and the vehicle used to transport a Mobile Food Unit trailer are not considered signage for the purposes of this ordinance, so long as all other requirements of this section are met.

- j. Temporary Use for each location shall be renewed annually.
- k. Temporary use permit will be issued only when all conditions listed have been met. There shall be no temporary licensing of Mobile Vendors until such conditions are met. Only duly licensed operators shall be permitted.

**5.c.7. Allowed Temporary Uses:** Within designated “Farmer’s Market” areas, individuals may sell produce (fruits and vegetables) grown by the seller or a member of the seller’s immediate family or household from roadside-type stands or personal vehicles. No permit is required as long as all sales are conducted within the designated area. **NO WHOLESALE/RESALE WILL BE PERMITTED.** Sumter City Council will designate parcels within commercial and industrial districts recommended by the Planning Staff as Farmer’s Market areas with the concurrence of the property owner. Sales may only be conducted during daylight hours. Any other temporary retail sales must comply with *Article 5.c.6.f*.

**5.c.8. Outside Storage:** No outside storage (which shall include in its meaning “outside display”) shall be permitted in a PO district. Outside storage of merchandise which is for sale, exclusive of non-useable merchandise i.e., salvage or junk, shall be permitted in NC, LC, GC districts. Outside storage shall be permitted in the LI and HI districts provided that such storage is located behind the principal structure. However, outside storage (where allowed by district regulations) may not be permitted in any bufferyards, or parking areas.
